

**MULTICULTURAL  
PUBLIC HEALTH  
STUDENT ASSOCIATION  
(MPHSA)**

# Multicultural Public Health Student Association

## Mission

The mission of Multicultural Public Health Student Association is to bring public health students together to create a safe environment in which everyone has the ability to experience, learn, and embrace a tangible meaning of diversity.

# Multicultural Public Health Student Association

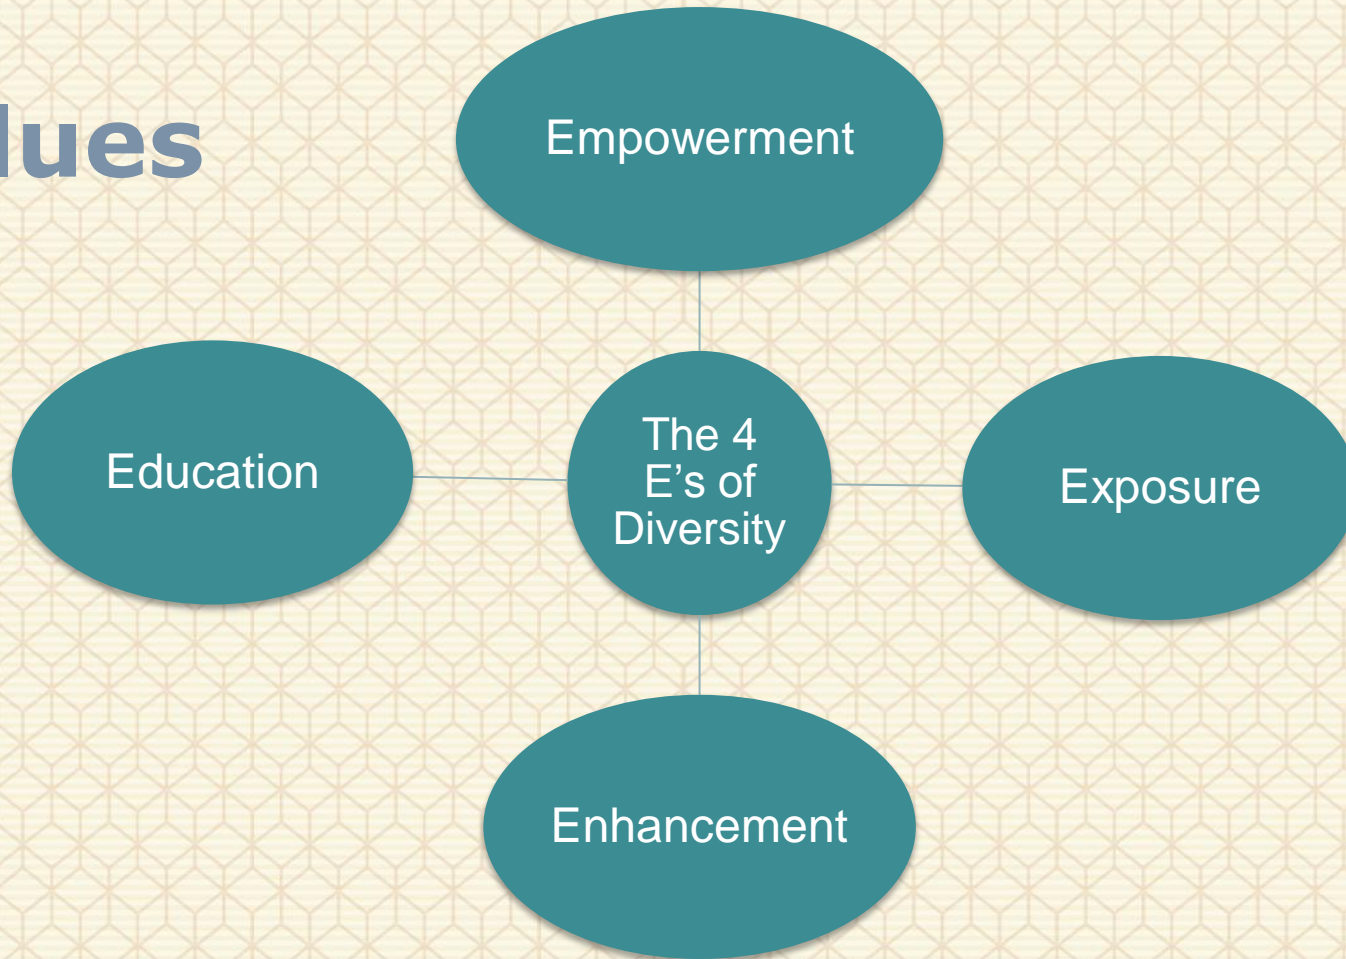

## Vision

To serve as a catalyst for culturally competent leadership that enhances health outcomes for all

# Multicultural Public Health Student Association

## Values

# Multicultural Public Health Student Association

## Objectives

1. To inform members, potential members, and community members of the purposes of MPHSA, its goal, programs, and benefits
2. To develop relationships and create a sense of cohesiveness among people of various backgrounds
3. To enhance the cultural experience of university students, faculty, staff, and professionals members through culturally centered programming and cross cultural interactions
4. To educate members and non-members of the importance of culturally competent public health practice
5. To empower university students, faculty, staff, and professionals to apply intercultural skills to current and future professional endeavors
6. To expose members to culturally sensitive leadership opportunities
7. To promote the adoption of multiculturalism in interdisciplinary health care settings through collaboration with campus-wide professional and graduate student organizations
